

Multiphase Pump User Roundtable
Calgary: June 7, 2010

Canadian Natural

This year's MPUR-Canada will be held at the Metropolitan Conference Center (333 Fourth Ave S.W. Calgary, Alberta). The Multiphase Pump User Roundtable provides a focus on the application of multiphase boosting technology. In the past eleven years, the MPUR has grown to become the premier event for multiphase pumping and a unique forum to learn about this evolving technology. MPUR-CANADA provides a focus on key Canadian topics such as the use of multiphase pumping in the Oil Sand Developments and emerging uses in Gas Well Deliquification (GWD).

Monday: June 7, 2010

8:00	Registration, Tea & Coffee
8:30	Welcome and Introductions <i>PetroleumETC</i>
8:35	History, Objectives and Impact of the MPUR <i>Sven Olson, Leistritz Corporation</i>
9:00	Keynote Presentation - Evolution of Multiphase Pumping in Canada <i>Roland Massinon, MPP Engineering Ltd.</i>
9:30	CNRL Multiphase Pump Uses and Efficiencies <i>Paul Taylor, Canadian Natural Resources Ltd.</i>
10:15	Break - Informal Discussions - Exhibits
10:45	CNRL Multiphase Pump Mechanical Challenges <i>Mark Yobb, Canadian Natural Resources Ltd.</i>
11:30	SAGD Wellpad Multiphase Pump Selection-Rationale and Criteria <i>Tim Webber, Statoil</i>
12:15	Lunch - Informal Discussions - Exhibits
1:30	Multiphase Pumping in the Canadian Oil Sands ----- <i>Moderators: Mark Yobb, CNRL; Tim Webber, Statoil; Sven Olson, Leistritz</i> ----- 1. Digressive Screws <i>Dietrich Müller-Link, Bornemann Germany</i> 2. Seals and Seal Flush Systems <i>Thorsten Sieber, EagleBurgmann Germany; Sean Carty, EagleBurgmann Canada</i> 3. Downhole Multiphase Pumps <i>Colin Drever, Schlumberger Canada</i>
3:00	Break - Informal Discussions - Exhibits
3:30	Special Application Update: Ku-Malooob Zaap, A Very Large Multiphase Pumping Installation <i>Sven Olson, Leistritz Corporation</i>
4:00	Special Technology Update: Subsea/Offshore Multiphase Pumps <i>Alejandro Fratini, Flowserve</i>
4:30	Conclusions and Wrap-Up
