4:15	Breakouts: 1. Heavy Oil Pumping - Candidate Selection, Evaluation and Implementation <i>Chair: Giovanni A Urdaneta Fernández</i> 2. Heavy Oil Metering - Selection, Evaluation and Implementation <i>Chair: Flavia Viana, SWRI</i> <i>Chair: Dr. Horacio Ferreira, Supetrol Inc.</i>
6:00	Cocktail Party

PetroleumETC is pleased to host the 2nd annual Multiphase User Roundtable-Mexico in Villahermosa, Mexico. This year's event will be held at the Quinta Real Hotel. The goal of MUR-México is to foster the sharing of emergent ideas and to document examples of successful Mexican applications. As well as for the roundtable to offer a unique learning experience for those requiring cutting-edge knowledge in this growing discipline. This day and a half event, will cover both pumping and metering.

For additional information, please contact:

Ryan Lyman - Roundtable Coordinator
